To whom it concerns,

I am writing this letter on behalf of Shreyas Hirday. Shreyas spent a summer working with us in the Canary offices in New York. I managed his progress over this time and was greatly impressed at the level of value he delivered to our company over this time.

Shreyas demonstrates the engineering ability required to understand the requirements of a project and apply the research and implementation over the course of its duration. When Shreyas joined we initially had him work on assorted smaller projects to get a feel for how we deliver software at Canary. When presented with the opportunity to work on a larger project Shreyas jumped at the chance to get involved. From then on he spent his time working with some of our most senior embedded engineers on bringing this concept from whiteboard to reality. Shreyas was punctual, diligent and a pleasure to work with. Shreyas' self-motivation and keen desire would make him a great asset to any engineering team. Please do not hesitate to email me if you would like to discuss this recommendation further.

Best regards,

Tiernan Kennedy

Engineering Team Lead, Canary
